NUWAN GANGANATH RATHNAYAKA

Software Engineering Intern Candidate | Full-Stack Developer

Phone: +94 776 498 940 | Email: nuwanrathnayaka53@gmail.com | LinkedIn: www.linkedin.com/in/nuwan-ganganath-rathnayaka | GitHub: https://github.com/Nuwan53

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate at the University of Ruhuna with hands-on experience in full-stack web development using Django, React.js, and MySQL. Skilled in designing and consuming RESTful APIs, building scalable MVC architectures, and integrating machine learning models into production-ready applications. Experienced in collaborative, Git-based development workflows with a strong foundation in OOP, database design, and CRUD operations. Seeking a Software Engineering internship at a top Sri Lankan technology company to apply technical skills to high-impact, real-world solutions.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript, SQL
Frameworks:	Django (REST Framework), React.js, JavaFX, Flutter
Web:	HTML5, CSS3, RESTful API Design, MVC Architecture
Databases:	MySQL, MariaDB — schema design, normalization, CRUD
Tools:	Git, GitHub, VS Code, IntelliJ IDEA, Postman
Competencies:	Full-Stack Development, OOP, Machine Learning Integration, Agile/Git Collaboration

EDUCATION

Bachelor of Computer Science | University of Ruhuna *2023 – Present*

Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Object-Oriented Programming, Operating Systems

PROJECT EXPERIENCE

SmartAgriMarket – Web-Based Agricultural Management System | *Django · React.js · MySQL · Machine Learning* [Group Project]

- Designed and developed RESTful APIs using Django REST Framework; integrated with a React.js frontend for a seamless full-stack experience
- Architected and implemented normalized MySQL database schemas supporting complex relational queries and full CRUD operations
- Integrated a machine learning model for agricultural price and demand forecasting, improving data-driven decision-making for end users
- Contributed to Git-based collaborative workflows; managed feature branches, pull requests, and code reviews with the team

Transit Tracker – Public Transport Real-Time Tracking App | *Flutter · Dart · GPS APIs* [Ongoing]

- Developing a cross-platform mobile application using Flutter and Dart for real-time GPS-based bus/vehicle tracking
- Implementing arrival time estimation algorithms with an intuitive, user-friendly UI design optimized for low-bandwidth usage

FisherMate – Fishing Decision Support System | *Java · JavaFX · OOP* [Group Project]

- Built a Java desktop application using JavaFX to predict optimal fishing conditions based on environmental input parameters
- Applied OOP design principles (encapsulation, inheritance, polymorphism) to implement modular, maintainable decision algorithms

PROFESSIONAL EXPERIENCE

Graphic Designer | Asil Advertising Pvt Ltd — Sri Lanka *2021 – 2022*

- Produced client-focused promotional and digital marketing materials, consistently meeting briefs and tight deadlines
- Collaborated with cross-functional teams to plan and execute integrated marketing campaigns
- Managed concurrent projects, demonstrating strong organizational skills and time management under pressure

CERTIFICATIONS

- Python and Django Framework for Beginners – Udemy (2025)
- HTML & CSS Complete Course – Udemy (2024)

LEADERSHIP & ACHIEVEMENTS

- **Marketing Team Leader** – Career Compass 2025, Department of Computer Science, University of Ruhuna
- **Boxing Silver Medalist** – Inter-University Boxing Championship 2025
- **University Kabbadi Team Member** – 2024–2025
- **Volunteer –** Sasnaka Sansadha & Sri Lanka Red Cross, Kurunegala District
